**Certified QuickBooks® ProAdvisors Offer Free Workshop at Greater Philadelphia Chamber of Commerce, October 28, 2010 at 9:30 am**

***Learn How to Use QuickBooks to Manage Your Business and Maximize Your Bottom Line***

Conshohocken, PA—St. Clair CPA Solutions will host a free QuickBooks® workshop for small business owners, bookkeepers, financial managers, nonprofit administrators and other users at the **Greater Philadelphia Chamber of Commerce on Thursday, October 28, 2010 from 9:30 am to 12:30 pm. How to Use QuickBooks to Manage Your Business and Maximize Your Bottom Line** will be presented by two Certified QuickBooks ProAdvisors®, and will enable attendees to make better use of the popular accounting software program. Although the program is presented free of charge, reservations are required: email [events@stclaircpa.com](mailto:events@stclaircpa.com) to reserve a seat. Lunch will be served.

Workshop presenters **Madeline G. Weinrebe, CPA** and **Linda A. Nitterauer, CPA** are highly experienced small business accountants who received advanced training and testing to become Certified QuickBooks ProAdvisors. Complementing their many years of providing accounting, auditing, and business advisory services to clients, their special expertise enables them to help customize QuickBooks for the specific needs of businesses and individual users, and train users in best practices while using QuickBooks to manage their organizations more efficiently and effectively. Both Weinrebe and Nitterauer are members of the accounting and auditing department at St. Clair CPA Solutions and its affiliate, St. Clair CPAs, P.C. The firm has offices in Conshohocken, PA and Merchantville, NJ.

“We know from experience that many businesses, and particularly new businesses, will buy QuickBooks, install it, and waste quite a bit of time figuring out how to use the program to run their books,” says Weinrebe. “We also see time and again that once businesses do get the software up and running, they are not using the software to its full potential. This workshop will give attendees practical information that they can easily implement to realize immediate benefits from better financial management.”

Workshop topics will include an in-depth analysis of reporting functions, ways to increase productivity and reduce keying time, tools to implement internal controls and ensure accuracy, ways to reduce the risk of fraud, and systems to maintain accounting books and minimize accounting bills. Attendees are encouraged to come with their own QuickBooks questions.

**How to Use QuickBooks to Manage Your Business and Maximize Your Bottom Line** will be held in the Chamber’s DiBona Room at 200 S. Broad St., Philadelphia, PA 19102. To learn more about St. Clair CPA Solutions and workshop presenters Madeline Weinrebe and Linda Nitterauer, visit [www.cpasolutions.net](http://www.cpasolutions.net). Register for the free QuickBooks workshop on Oct. 28<sup>th</sup> at [events@stclaircpa.com](mailto:events@stclaircpa.com) or call Kim Giandomenico at 800.732.1016.
